220-380MHZ

LOW PROFILE UHF TACSAT OMNIDIRECTIONAL ANTENNA FLANGE MOUNT (EXTERIOR) IDEAL FOR COTM OR CATP

By integrating revolutionary materials, we are able to crush traditional expectations that high gain antennas need to be large! Mount this antenna on outside of your vehicle or platform for truly discreet communications!

Our antenna designs offer users up to three times gain and substantially better look angles than other products on the market today!
