Specifications

Our patented antenna designs shatter the conventional belief that high-gain antennas must be large! Easily mount this antenna on your vehicle or platform for a truly discreet, high-gain connection — especially at low look angles.

Our innovative designs deliver up to three times the gain and significantly improved look angles compared to other solutions available today!

Frequency	1.20-2.20GHz
Polarization	RHCP
Gain	4+dBic
Power	Max 20w continuous
Dimensions	3.75" x 1.25"
Connectors	SMA (f)
Mounting	Magnet, bolts
